

TORC

**TURN TO PRECISION
WITH WEDCX SERIES!**

BATTERY TORQUE WRENCH

Power Torque Tools

The newly engineered WEDCX battery torque wrench showcases unparalleled strength, adaptability, and dependability. With the WEDCX Preferred Series, users can set their desired torque with greater ease. Features include:

- Digital torque customization, with adjustments in 1 Nm increments.
- A robust maximum torque of 8000 Nm, paired with an automatic reaction arm release as a standard feature.
- Ideal for situations with restricted power availability or for field operations.
- Enhanced battery longevity; comes standard with two batteries and a charger.

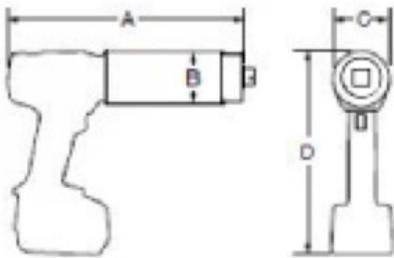

Power Torque Tools

Innovative. Adaptable. User-friendly.

- **Embraces Brushless Technology for a low-maintenance and contemporary control system.**
- **Delivers high and consistent torque, powered by a potent battery and advanced microprocessor electronics.**
- **Maintains top-notch performance until the battery is completely drained.**
- **Enhanced safety with a wireless battery drive to reduce accidents.**
- **Versatile application with multiple model series, including straight and angled drives.**
- **Features an automatic shut-off upon achieving the set torque and releases the reaction arm.**
- **Torque precision surpassing 3% accuracy.**
- **Designed with an ergonomic grip for comfortable usage.**

WEDCX Series
Battery Torque Wrench

- ✔ Digital Display
- ✔ Adjustable Torque from 120 NM to 7000 NM
- ✔ Accuracy +/-5% of reading
- ✔ Repeated Accuracy:±2%
